

# Make an Autumn Collage

## You Will Need

- Large plain paper/card
- Glue
- Different shapes and colour leaves, twigs, etc.
- Decorations such as glitter, crayons, googly eyes

## Why do we do this?

Making an Autumn Collage helps to develop fine motor skills. It's an opportunity to explore different textures and colours, learn about different seasons and provides an opportunity to get creative together.

**Step 1** - Use plain paper or card to use as the background for your collage.

**Step 2** - Choose different shapes and colours of leaves, twigs and other items and glue them to the paper card. Items can be cut, torn or broken to make a picture and then further decorated with glitter, googly eyes, etc.

**Step 3** - Allow the collage to dry.
